

## Applied Structural Drying

Does your company use air movers and dehumidifiers? Do you know how to properly set up and dry a structure? Are you ahead of our industry or behind it?

This **3 day hands-on** class was designed to prepare you for actual on site action with a real water damage in our flood house. The first of its kind in Canada, and with our Flood House outside, we are able to show the attendees real RESULTS!! Exposed to the elements, our 1024 square foot modular home is a fully functional, fully furnished environment with various types of carpet, hardwood and vinyl flooring, wall surfaces, paints, cabinets and substrates. Offering realistic conditions, the Center for Disaster Recovery prides itself in our training using the outlined standards and guidelines available today.

This course helps train the student to dry the entire structure from top to bottom using various pieces of the most advanced equipment and methods of drying. The student will perform the techniques required to guarantee the job is dry.

The course teaches the student to dry:

- Hardwood Flooring
- Underpad
- Wall Cavities
- Metal Studs
- Doors/Windows
- Using Psychrometry to make educated decisions in drying daily
- Different styles of carpets
- Subflooring (different types, e.g. OSB and Plywood)
- Crawlspace
- Insulation
- Furnishings
- Extensive monitoring of the jobsite with interactive classroom/jobsite training
- Different installations of carpets
- Contents on site
- HVAC Ductwork
- Finish Trim
- Extraction Methods
- Class participation in all phases of the extraction process and drying techniques

**\*\*Fee includes: Morning snack, lunch daily and the course manual**

**Please note: \*Water Damage Restoration Technician is a mandatory pre-requisite course needed in order to attend the AMRT and/or ASD. Those taking the AMRT and/or ASD course must have already attended AN IICRC Certified Water Damage Restoration Technician course. Those attendees whom have neglected to obtain this pre-requisite will NOT be eligible to write the exam nor will they be able to gain credit for the course**
